

A Hilariously Serious Whitepaper

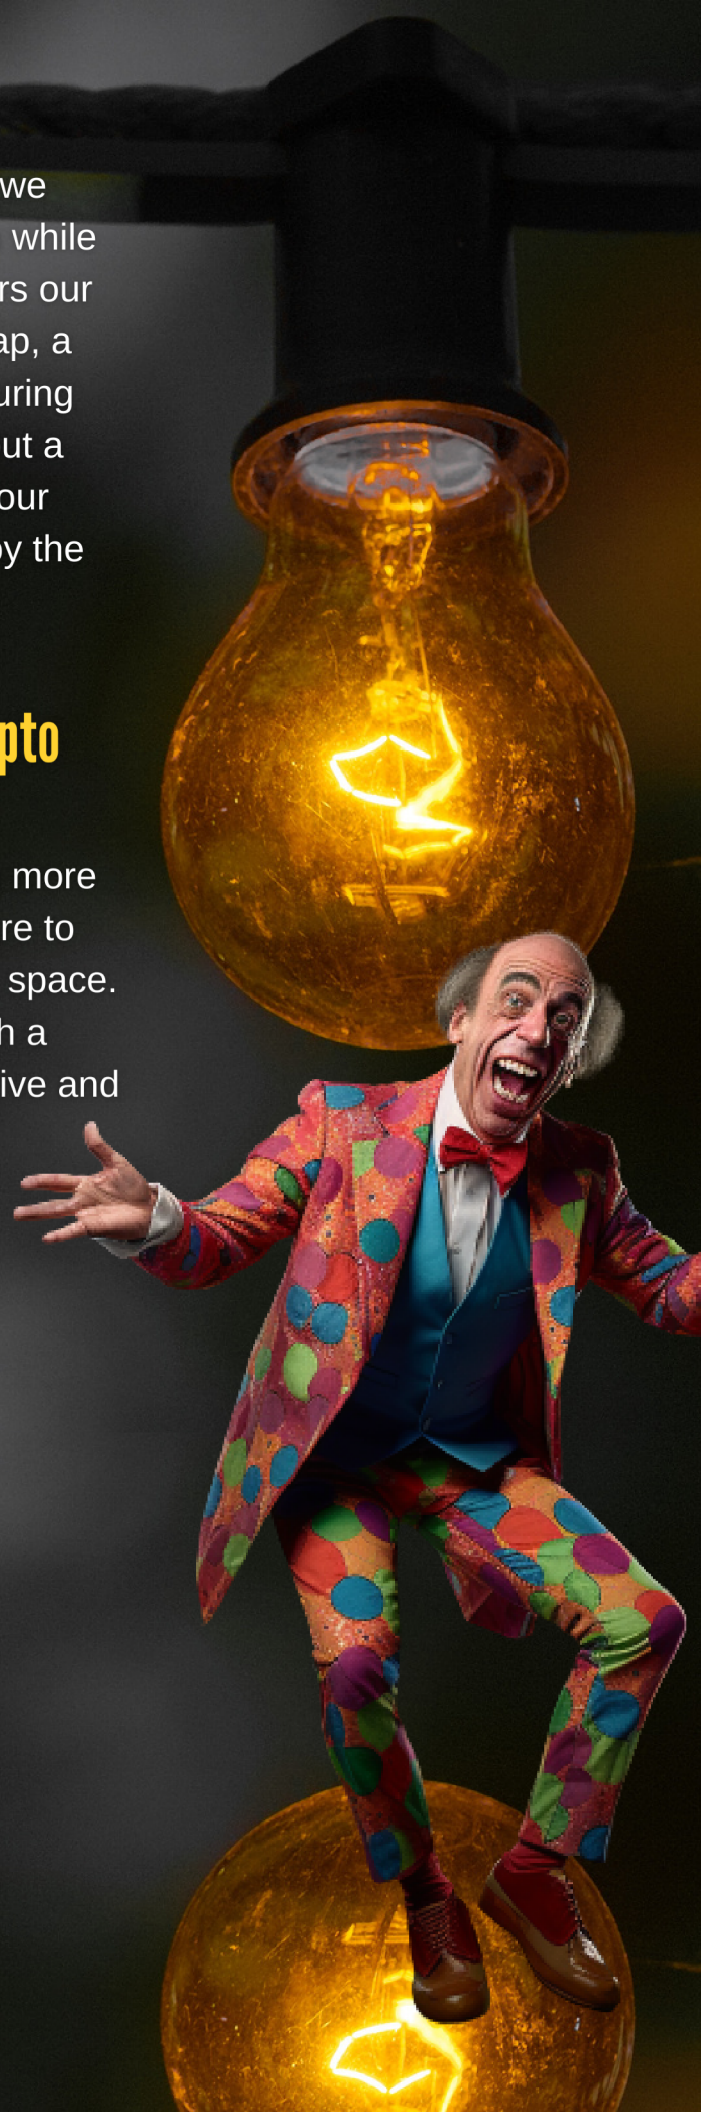

Welcome to the world of GARY Token, where we poke fun at the absurdities of crypto regulation while building a decentralized platform that empowers our community. Our project consists of a DEX/Swap, a Staking app, and a unique NFT collection featuring clown and reptile humanoids, all designed to put a cheeky grin on your face and more GARY in your wallet. Buckle up, grab your popcorn, and enjoy the ride!

1. Introduction: Clowning Around in Crypto

In a world where crypto regulations are getting more tangled than a clown's wig, GARY Token is here to bring humor and light-heartedness back to the space. Our mission is to challenge the status quo, with a wink and a nudge, while still delivering innovative and engaging applications for our users.

2. GARY's DEX/Swap: Where the Magic Happens

At the heart of our platform lies the GARY DEX/Swap, a place where users can trade and exchange their favorite tokens without worrying about the regulatory circus. Our DEX/Swap is designed to be user-friendly, even for the most inexperienced crypto enthusiasts. And who knows? You might just find a hidden gem or two in our ever-growing token selection.

3. Staking: Lock Up Your GARY and Watch It Grow

To make things even more exciting, GARY Token offers a unique staking app where users can lock up their \$GARY tokens and watch them multiply. We call it "LOCK UP GARY!" as a tongue-in-cheek reference to our favorite crypto regulator. Stake your GARY and earn rewards, all while having a chuckle at the expense of the #cancelgensler clown.

4. GARY Tokenomics: A Recipe for Laughter

The tokenomics with a twist that's as quirky as its namesake! Our unorthodox formula has no taxes or fees, because GARY wouldn't want it any other way.

- **60% Fair-Launch & LP** - Locked and Automatically added to PancakeSwap as LP for 10 years with a renounced contract. It's like a cake in the oven that won't be ready until 2033 - and we've thrown away the key! #GARYToken #LongTermBaking.
- **20% Staking Rewards** - Get ready to stake & earn, as we've got great staking rewards, so sit back and let your tokens do the heavy lifting.
- **5% Token Airdrop** - Early investors will feel like they've won the GARY lottery with our Airdrop Extravaganza for those who dive in headfirst and hodl 30 days. (Locked for 30 days after launch)
- **5% Sweepstakes Competition** - 2 Sweepstake competitions to win a grand price of \$10 000 in \$GARY. (Vested: 7 days 50% / 14 days 50%)
